

Creating Heterogeneous Groups Using Technology

Day: Thursday, November 18, 2010
Session: 8:45 – 10:15 am
Room: Aztec B

Presenters:

Thomas John Yake – tjyake@gmail.com
Lead Teacher, High School & Middle School
Omega Schools, Inc.

Session Description:

Using an Excel-based program, teachers can create heterogeneous/flexible groupings in their classroom. Groups require student data dependent on how the teacher want to group the students. Example: reading literacy, math literacy, behavior styles, learning styles, ELL-designation, SPED, and mixed-demographics. Bring your laptop and a sample classroom roster and start to develop your own program to create heterogeneous/flexible groupings.

Presenter Information:

Thomas John Yake is the lead teacher of La Puerta High School and Sturgen Middle School; part of the Omega Schools charter system. He is a graduate of the College of William & Mary and a proud member of the 2009 Teach for America corps.
